## JASON MANCARELLA

### *HVAC Division Manager*

Jason has 25 years' experience as a licensed contractor working in the Commercial and Residential field with design, sales, fabrication, installation and service. While in these roles he developed the skills and knowledge needed to work on and install all residential and commercial natural gas, LP and oil systems, Commercial rooftop and split systems, heat pumps both conventional and inverter technology. He also has expertise with sheet metal fabrication, installation of residential, commercial and industrial air systems and all types of hydronic systems including boilers, hydro air units and radiant systems.

Jason has spent the last 12 years at Torrco working from inside sales to his current role as Director of the HVAC Division. He is a trainer and instructor for all LG HVAC products and the ESCO Institute for EPA exams. He currently sits on the LG Advisory board as one of a handful of members from around the country. This board works directly with LG engineering and technical support and management.

## ANDY McHUGH

### *HVAC Field Support & Design*

Andy has spent the last 14 years in residential HVAC Installation & Service and is a licensed technician. He has vast knowledge in residential applications including gas, warm air equipment, refrigeration, gas and vent piping, low voltage wiring, zoning systems, etc. Andy has excellent customer service skills from his time in HVAC service.

Andy works in conjunction with Scott Bamford and Nick Longo in the design and support areas of the division. Andy has gone through All LG Residential and Commercial training and is a field commissioning agent as well.

## SCOTT BAMFORD

### *HVAC Product Specialist*

Scott has spent the past 37 years in the HVAC industry performing multiple roles as a S1 contractor, after serving 4 years in the U.S.

Navy as a boiler technician working on 1200 psi steam plants. He became a service/installation technician for heating and cooling contractors for 32 years, Scott has installed and serviced oil systems, natural and LP gas systems, heat pumps, hydronic and steam systems, ductless splits and cooling systems up to 100 tons.

Scott has been a part of the Torrco HVAC team for almost 6 years and is a vital part of the business growth. He offers top tier tech support in every aspect of the HVAC field and will not rest until a solution to a problem has been reached. His current responsibilities include application support, technical support, system design, heat losses and project management.

## EJ PLAZA

### *Strategic Account Manager*

EJ attended school for HVAC and also earned a business degree from UConn. He has been in the retail industry for over 10 years, in both sales and in management positions. His knowledge, attention to detail, and outgoing personality are the main reasons he is a valued member of the Torrco HVAC team.

EJ's role of Strategic account manager is to identify new and existing companies and assist them in streamlining their businesses to become more profitable and efficient. He has become a trusted member in the LG community and is well versed in all Residential and Commercial inverter business.

EJ is fully certified in all aspects of the LG world and is a trusted resource for Torrco HVAC.

## NICK LONGO

### *HVAC Field Support*

Nick is one of the newest member of the Torrco HVAC team. He has a 4 years of HVAC field experience and is a licensed technician.

Nick has a strong background in sheet metal installation and has grown with Torrco HVAC into a trusted LG field commissioning agent, technical support and designer.

He is currently working with Andy McHugh for field technical support, layout and design.

## JOSEPH LAWRUSZKO

### *HVAC Commercial Sales Engineer*

Joseph has spent the last 26 years in the HVAC industry. The first 13 years as a service/installation technician and the last 13 years as an independent contractor. During his time in the field, he developed the skills and knowledge to work on and install residential and commercial systems including rooftop units, split systems, hydronic systems, ductless inverter systems, heat pump systems and he also learned to design and install VRF commercial projects. He has experience in fabrication of sheet metal and the knowledge to design both commercial and residential systems.

Joseph has recently joined the Torrco HVAC team as a Commercial Sales Engineer dedicated to southern Connecticut. Joseph has excellent customer service skills from his time in the field. Joseph's responsibilities will include Commercial sales, system design, and being a go-to resource for all things related to LG and the Commercial HVAC world.

## ALAN LONGLEY

### *HVAC Inside Sales Person*

Alan has been in the HVAC wholesale industry for over 30 years and been with Torrco since 2009.

During his career, he has gained extensive knowledge of system design and application primarily for residential systems.

His operations and customer service background will make him a valuable addition to the Torrco HVAC team.
